Technology for the next Generation Award
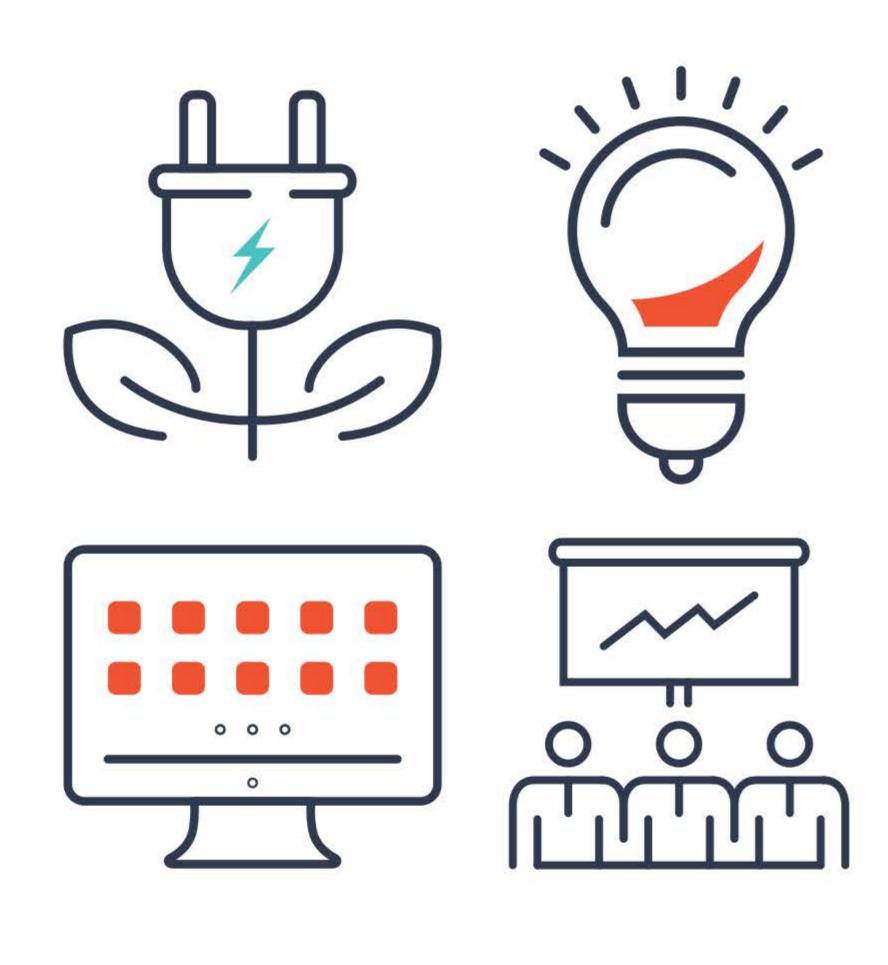

Win **CHF 10'042.00***
for your project!

* 60% of the prize is paid out and
  40% provided as service.

With the "Technology for the next Generation" award, we are supporting startups and scientists who are working on topics to improve our world for the next generation.

The analysis of large data sets ("big data") is gaining importance. Here, we see an interesting overlap with computer science. However, this is just one of many aspects where we may be able to offer support.
